TRAVEL & LEARN

...to travel is to live!

A 5-DAY IMMERSIVE LEADERSHIP EXPERIENCE

The most effective leaders are the ones who realize how much they need to learn, and are never too busy to do so.

. A leader who is not adequately skilled can not lead effectively. This training will help senior executives retool for now – a complex, rapidly evolving world, that requires intelligent and careful navigation.

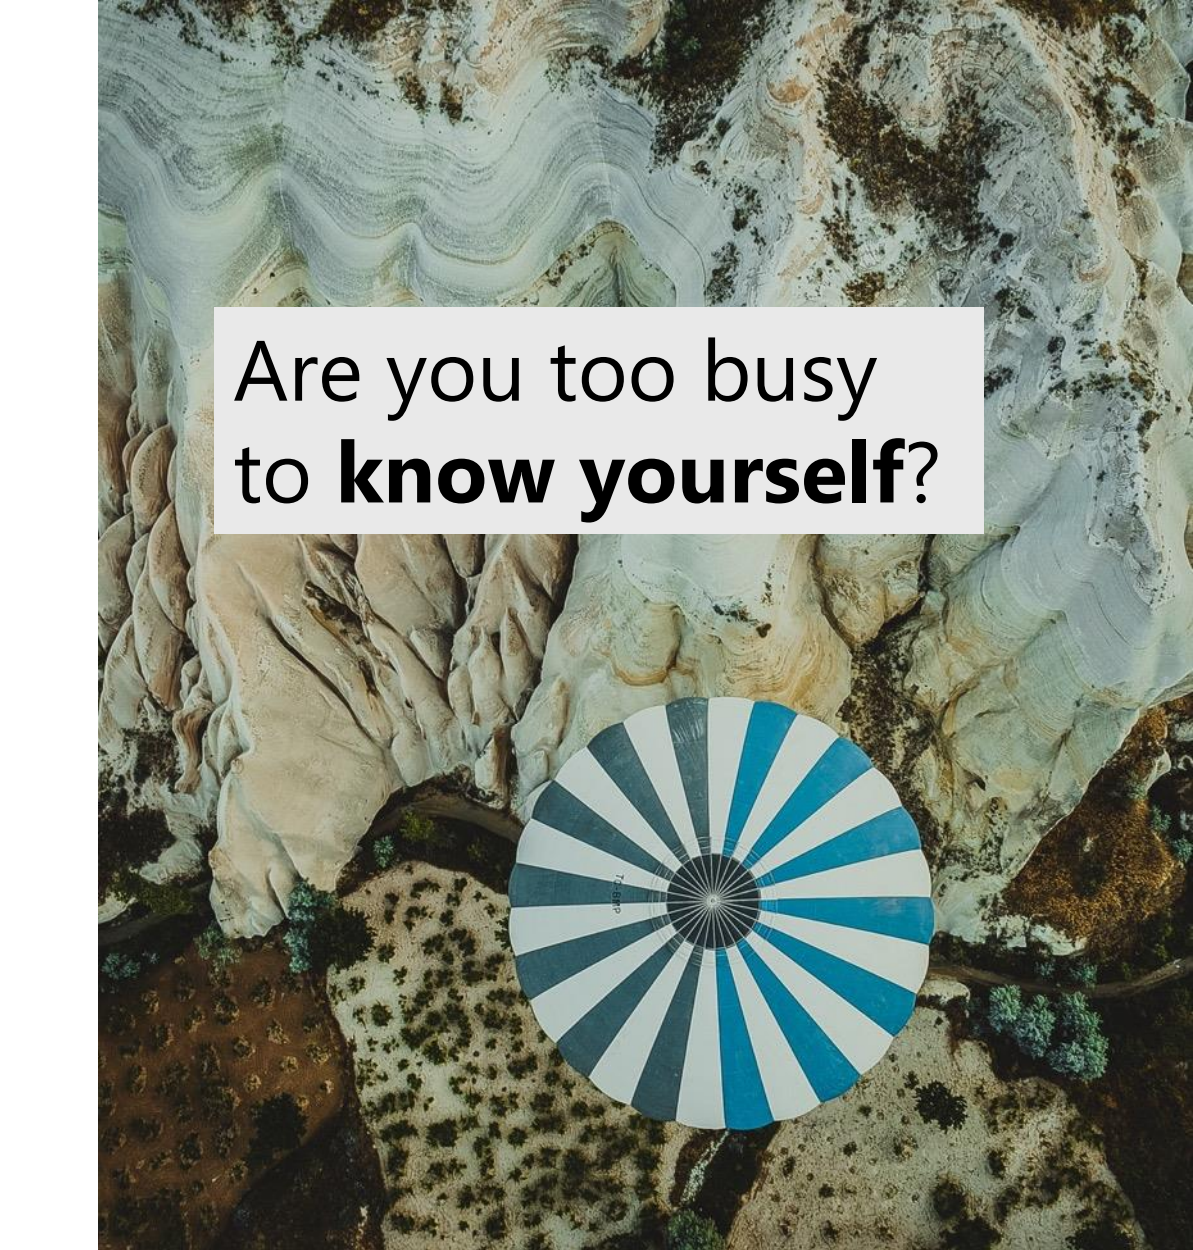

WHAT IS THE ESSENCE OF PERSONAL GROWTH?

The double helix of leadership explains that the personal growth of leaders and the challenges they tackle must be at par – always!

When leaders attempt to handle challenges that exceed their capacity, –they become disillusioned, burn out or develop coping skills that are damaging to their teams, their organizations and eventually their health.

Are you too busy
to **know yourself?**

UNWIND & UNLEARN

In a hyper-connected world, with unending complex challenges, senior executives often move from case to case without a chance to reflect on how they are being impacted by their tasks and their followers.

This retreat will give leaders the opportunity to reach within and expose the mental models they have been relying on – and check their effectiveness.

RENEW & RELEARN

A renewed mind soaks in new knowledge that it couldn't have taken in when in chaos...Psychologists advise that senior executives should never be too busy for renewal, it is only in this state that effective learning occurs.

As Stephen Covey mentioned in his book the seven habits of highly effective people, **sharpening the saw** is the only way a leader can stay super-productive.

AFRICA DEVELOPMENT ROUNDTABLE

EXECUTIVE STRATEGY SESSIONS

LEADERSHIP REFORM INITIATIVE FOR AFRICA

The Leadership Reform Initiative for Africa was launched in response to the strong deficit of leadership in the continent.

Ours is a continent replete with natural and human resources, yet we still struggle to make sense of it all.

Through LRINA, we hold pockets of learner-centred leadership programmes carefully designed to build the personal capacities of those who occupy leadership positions. It is one thing to qualify professionally for a position, and yet another thing to be developed personally to act in that capacity.

The most effective leaders are the ones who realize how much they need to learn, and are never too busy to do so.

...raising competent leaders across Africa.

THIS PROGRAMME

LEAD EQUIPPED

This is an exclusive programme for senior executives that aims to build their personal capacity by assessing how their leadership practice helps or complicates their leadership experience.

Through this programme, we are able to expose leaders to the differences in **leading as an activity, leadership as a process, and the leader as an individual.**

It is such a great exposition that often lays a strong foundation on which leaders can build subsequent leadership skills.

We are challenging leaders to ask themselves, how can I be better for Africa?
